

We at Hillsong Church are passionate about serving the global church community during this time and support The Church in transitioning from physical meetings to online church.

During this time Hillsong is ensuring that our music content can be facilitated by your church in your online stream as smoothly as possible.

There are two ways Hillsong music can be used in a stream of a church service (both live and pre-recorded). With original sound recordings, including multi-tracks and backing tracks, or without, i.e. with your own musicians.

### **CCLI**

CCLI have a Streaming Licence that covers not only your favourite Hillsong songs, but over 500,000 songs. This licence is extremely affordable and accessible for all churches and covers you for when you stream your own versions of the songs. See <http://ccli.com/streaming> for further information.

### **YouTube & Facebook**

While we recognise there are many streaming options for churches today, we highly recommend YouTube & Facebook when it comes to streaming services online as the best option when using any Hillsong sound recordings. (If you use YouTube & Facebook during this COVID-19 pandemic time, we will treat our sound recording in your stream as non commercial and therefore “User Generated Content” which means an automatic license within YouTube & Facebook will apply).

Your channel will receive an automated third-party claim, this will not affect your channel, or block content and should display accordingly on your video. To ensure there are no automated blocks, we recommend YouTube.

We have partnered during this period with [multitracks.com](https://www.multitracks.com) to have our Multitrack stems licensed for free for church streaming. <https://www.multitracks.com/artists/Hillsong/> (to be used in conjunction with a CCLI streaming license).

If you require a different type of master use (such as on a platform that is not YouTube or Facebook), please email [digitaldelivery@hillsong.com](mailto:digitaldelivery@hillsong.com). We can review and will endeavour to respond within 24-48 hours.

If you have any questions or there are any issues with your channel when using Hillsong songs please email [digitaldelivery@hillsong.com](mailto:digitaldelivery@hillsong.com).

Continuing to rely on Him in this time of uncertainty, thankful for the unwavering hope we have in Jesus and who He is.

The Hillsong Team
